Parent Payments Policy - 2014

Policy Coordinator: The Principal

PURPOSE:

- To ensure school-level parent payment policies and processes are compliant with the Department’s policy requirements.

BACKGROUND:

The Education and Training Reform Act 2006 ensures the provision of free instruction in the standard curriculum program (i.e. eight key learning areas), and empowers school councils to charge for goods and services used in the course of instruction and to raise funds.

The Department provides funding to schools through the Student Resource Package (SRP) and various programs. This includes funding for the standard curriculum program and associated education items, equipment and operational costs.

Free instruction includes learning and teaching, instructional supports, materials and resources, administration and facilities required to provide the standard curriculum program. The standard curriculum program includes core learning and teaching activities associated with the Victorian Essential Learning Standards (VELS) and senior secondary certificates (VCE, VCAL and VET programs).

IMPLEMENTATION:

School councils are responsible for developing and approving a school-level parent payment policy that ensures:

- all students have access to the standard curriculum program
- it covers the three parent payment categories i.e. essential education items, optional extras or voluntary financial contributions
- the school does not withhold access to enrolment or advancement to the next year level as a condition of payment for any of the three categories
- items that students consume or take possession of are accurately costed
- cost is kept to a minimum
- payment requests must be clearly itemised within each category

• parents/guardians are given the option of purchasing equivalent essential education items themselves, in consultation with the school

• students are not treated differently, denied access to the standard curriculum program, refused instruction or disadvantaged on the basis of payments not being made for education items, services or voluntary financial contributions. For example if parents/guardians choose for their children not to attend a compulsory excursion/camp an alternative option needs to be provided.

• the status and details of any payments or non-payments are confidential

• parents are provided with early notice of payment requests (e.g. a minimum of six weeks notice prior to the end of the previous school year)

• payment may be requested but not required prior to the commencement of the year in which the materials and services are to be used

• it meets the community’s expectations and is provided to parents.

Principals, as executive officers of school councils, must ensure that the school-level policy complies with the Department’s policy and that all staff are familiar with and adhere to it.

Important:

• It is not acceptable to use coercion or harass parents/guardians to obtain payment.

• Principals must ensure any payment records are kept confidential. The public identification of students or their parents/guardians who have or have not made a payment or financial contribution is unacceptable and must not occur in any circumstance.

• Under no circumstances can collectors of any type, including debt collectors, be used by schools to obtain any funds from parents/guardians.

CATEGORIES:
This table describes the three parent payment categories that school councils can request payments from parents.

general voluntary financial contributions or donations to the school.

**SCHOOL-LEVEL PROCESSES:**

**Communication with parents**
The school-level policy should ensure that all communication with parents/guardians, including payment requests, is fair and reasonable.

Payment requests, letters or CASES21 invoices for student materials and services charges must be accompanied by the following information:

- a description of each of the three parent payment categories
- details of what parents are being asked to pay for
- that parents are required to provide essential education items for their children, and have the option of purchasing these through the school or through a local supplier, where appropriate
- the availability of alternative payment options and an invitation to contact the principal if the parent wishes to discuss these
- a copy of the school-level policy.

**Administrative and payment processes**
The school-level policy should ensure that:

- there is a clearly articulated process for the administration of the Education Maintenance Allowance (EMA), that payment arrangements coincide with the timing of the EMA’s availability and that parents are not be pressured to sign over the EMA.
- administrative and financial processes are compliant with Departmental requirements such as CASES 21 financial reporting.
- invoices for unpaid essential education items or optional items accepted by parents are generated and distributed on a regular basis, but not more than once a month.
- only the initial invitation for voluntary financial contributions and one reminder notice per year is sent to all parents/guardians.
- receipts are issued to parents immediately upon payment and receipted on CASES 21.

Support Options

Education Maintenance Allowance
The EMA is provided to eligible families to help with the cost of essential education items such as textbooks, stationery, uniforms and excursions.

Parents/guardians who have signed over their EMA cheque to the school should be informed that they:

- have the option of providing essential education items themselves
- can authorise the school to direct the family’s EMA towards particular items
- are entitled to know how the EMA is being used for their child’s education. Upon request, the principal should therefore advise parents/guardians of the itemised cost of student materials and services on which they propose to spend the EMA.

The EMA cannot be used to offset voluntary financial contributions.

Any portion of the EMA not expended by the end of the year must be returned to the parent unless there is agreement by the parent that this money can be carried over into the next year.

For more information on EMA see: Education Maintenance Allowance

Other support options
There are a range of other support options available for parents experiencing difficulty in paying for essential items including:

- access to State Schools Relief Committee support via the principal to assist with clothing/uniforms
- welfare and support agencies that have established partnership arrangements with schools to provide further assistance to students and their families.

Principals must exercise sensitivity to the differing financial circumstances of individual students and their families. Principals are encouraged to make decisions about how to manage non-payment of essential education items or optional extras on a case-by-case basis.

Where families have difficulty making payments, principals are expected to discuss with them the range of support options available, and to negotiate an appropriate alternative arrangement, such as payment by instalments.

Principals are encouraged to explore ways to make quality second-hand books and uniforms available to parents in need.

Parents/guardians who experience difficulties providing or paying the school to provide essential education items, should be encouraged to make an appointment with the principal or other nominated senior staff member to discuss alternative payment methods.
